## ● Reducing waste for ECO friendly living!

Since April, 2003, the town of Shimizu has charged for the collection of garbage, and with the cooperation of its residents has promoted the separation and effective utilization of recyclable materials.

As of April, 2019, the Shimizu office of waste management joined the Tokachi Area Complex Administrative Association and will jointly process all materials at the Kuririn Center in Obihiro. Please take note that some of the prior sorting and loading methods have changed.

Furthermore, by reducing the amount of burnable and unburnable garbage, we will simultaneously create a sustainable environment while promoting the “less garbage = eco-friendly” lifestyle. Tips for an eco-friendly living have also been included, so please use them!

## ● Overview of recycling and disposal methods

CLASSIFICATION		Classification Types	Example Products	
Burnable (COST: designated bag)	①	Burnable items	Wooden products, miscellaneous paper, Feminine hygiene products, cat litter, pet waste, underwear, Fish bones, shellfish, meat, produce, food waste	
		unburnable items	Glass items, tin foil, leather goods, rubber goods, etc.	
		Unrecyclable items	Dirty or crushed cans, unrecyclable containers	
Unburnable (COST: designated bag)	②	Plastic items	Dirty or crushed plastic items, NON  marked items	
		Items with hazardous substances	Fluorescent lightbulbs, batteries	
		Things that may cause injury	Razors, knives, scissors, etc.	
Recyclable Materials (FREE: clear bag)	③	Empty cans	Tin, aluminum, and steel cans	
	④	Glass containers	Glass bottles, jars, and containers	
	⑤	 PET bottles	Bottles with the  mark	
	⑥	 Paper packaging	Items with the  mark	
	⑦	 Plastic packaging	Plastic containers or packaging with the  mark	
	⑧	 Paper cartons	Milk, orange juice, and other paper cartons	
	⑨	 cardboard	Cardboard boxes	
	⑩	Newspapers and pamphlets	Newspapers, pamphlets, and flyers	
	⑪	Magazines	Magazines, books, catalogs, toilet paper tubes, notebooks	
	⑫	Cooking oil	Tempura oil, bacon grease.	
	⑬	Metal products	Spray cans, pots, pans, tea kettles, container lids, etc.	
	Recyclable at the town office	⑭	Small electric appliances	Electric kettle, phones, rice cookers, camera, game consoles, etc.
		⑮	Used clothing	All clothing and outerwear (excluding underwear), pet products
	Large Scale (COST: designated label)	⑯	Large scale items	Furniture (sofa, table, chairs, beds, dresser, bookshelves, etc.), flooring, carpet, drying racks, coat racks, sports equipment (golf clubs, snowboards, etc.)
Items that cannot fit into a designated recycling bag.				
Other (FREE: clear bag)	⑰	Diapers	Infant, pet, and adult diapers	
	⑱	Plants, leaves, garden waste	Items collected from volunteer town cleaning.	
Non-Disposable	Other specified items		Cars, motorcycles, mopeds, tires, car batteries, pianos, etc. Farm equipment, pesticides, oil, paint, industrial waste, etc.	
	Large scale electric items designated by law		Air conditioners, TVs, washing machines, refrigerators, etc.	
	Separate collection routes		Fire extinguishers, gas canisters, motor oil, etc.	

## ● City Designated Trash Bags / Labels (PRICES)

Volume	Price: Pack	Burnable	Unburnable	Large garbage
5 liter bags (10 pack)	150 ¥			Designated label @100 ¥ 
10 liter bags (10 pack)	300 ¥			
20 liter bags (10 pack)	600 ¥			
30 liter bags (5 pack)	450 ¥			
45 liter bags (5 pack)	600 ¥

## Types of Burnable Garbage

Kitchen waste/ raw garbage		Vegetables, fruit peels, food scraps, shells, fish bones, chicken bones, etc. ※ Please remove excess water before disposal! ☆ Raw garbage is composted to reduce waste.
Paper products		Used paper, dirty paper containers, receipts, order slips (carbon paper on the back), envelopes with or without plastic windows, labels, etc.
Dead Leaves		Flowers, grass clippings, gardening waste, branches, leaves, etc. ※ Items can be composted by placing them in the corner of your yard.
Diapers		Please place sullied diapers into a clear plastic bag. ● Pet waste does not apply. Please dispose of pet waste in designated bags.
Old clothing/ garments		Textile Recycling: All clothing is collected free of charge as "industrial waste." ※ For more information, please refer to "Used Clothing/Garments" section on pg. 5.

## Types of Unburnable Garbage

Plastics		All items without the plastic recycling symbol (pens, soap bottles, video tapes, strings, toys, <b>unclean</b> plastic containers, etc.)
Aluminum		Aluminum foil, cans, pots, pans, etc.
Leather and rubber products		Bags, belts, rubber boots, shoes, sandals, gloves, tubes, hoses, etc.
Broken Glass		Glass items/containers, broken glass, mirrors, porcelain, chinaware, ceramics ● Please label broken items as dangerous → 「危険」(きけん)
Small appliances		Used small electronic devices are collected free of charge. ※ For more information, please refer to "Small Electronic Devices" section on pg. 5.
Hazardous items and materials		Fluorescent lightbulbs, thermometers, batteries, razors, knives, scissors, pins, etc. ※ To ensure that the fluorescent lightbulbs do not break upon disposal, please place inside a case. ※ Please wrap all bladed items in paper!

### ※ Attention!

- Please be sure to deposit your trash by 8:30 AM on collection day at the appropriate garbage station or collection site.
- Garbage that has not been placed in the pre-designated bags, or trash that has been set out after 8:30 AM will not be collected.
- As to not cause a hindrance to others, be sure to deposit your garbage by 8:30 AM the morning of collection day.

## Recyclable Materials: Separation and Disposal

 <p>Plastics</p>  <p>Paper</p>	<ul style="list-style-type: none"> <li>● If dirty plastic items are deposited with non-recyclable garbage, they must be reclaimed. Effective recycling will reduce waste volume and shorten the lifespan of landfills. Please follow the steps below to correctly recycle all plastic and paper materials.</li> </ul> <ol style="list-style-type: none"> <li>① <b>Thoroughly wash</b> all plastics <b>with dish detergent</b>.</li> <li>② <b>Do not mix with paper and plastic items</b>.</li> <li>③ Please place all washed and properly sorted items in a transparent bag. (This will help to lessen the burden of sorting after pickup. <b>Please do not double bag items!</b>)</li> </ol> <ul style="list-style-type: none"> <li>● Be sure to put <b>plastic packaging</b> and <b>paper packaging</b> in <b>separate bags</b>.</li> </ul>
  <p>PET Bottles</p>	<p>Plastic bottles with the  mark (beverages, alcohol, vinegar, mirin, salad dressing, etc.)</p> <ol style="list-style-type: none"> <li>① Remove cap and label (please place in the plastics  recycling.)</li> <li>② Rinse out the inside of the bottle.</li> <li>③ Place all washed bottles in a transparent bag.  <p>Tin cans</p>	<ol style="list-style-type: none"> <li>① Rinse out the inside of all tin cans.</li> <li>② Place all washed cans in a transparent bag. (This will help to lessen the burden of sorting after pickup. <b>Please do not double bag items!</b>)</li> </ol>
 <p>Cooking oil</p>	<ol style="list-style-type: none"> <li>① Label all oil containers and bottles with 「廃油」 / 「はいゆ」 in large print.</li> <li>② Set out on the designated recycling day.</li> </ol>
  <p>Cardboard</p>	<ul style="list-style-type: none"> <li>● All cardboard items with the  mark.</li> <li>● <b>Even if only one piece</b>, dismantle and tie up all cardboard items with string.</li> <li>● Items in box form or not tied up with string <b>WILL NOT</b> be collect.</li> </ul>
  <p>Paper cartons</p>	<p>All paper cartons with the  mark.</p> <ol style="list-style-type: none"> <li>① Rinse out the inside of carton.</li> <li>② Place all washed cartons in a transparent bag. (This will help to lessen the burden of sorting after pickup. <b>Please do not double bag items!</b>)</li> </ol> <ul style="list-style-type: none"> <li>● Cartons lined with aluminum foil must be placed in the <b>burnable garbage</b>. Do not mix.</li> </ul>
 <p>Newspapers, magazines, etc.</p>	<ol style="list-style-type: none"> <li>① Tie up all items with string.</li> <li>② Loose leaf papers and envelopes should be placed between magazines, or bound together separately with string.</li> </ol> <ul style="list-style-type: none"> <li>● Items that can be put out in magazines- pamphlets, catalogs, menus, calligraphy paper, etc.</li> <li>● Items that can be put out with burnable garbage- photos, carbon paper, gold/silver leaf paper, oil absorbing paper, wax paper, etc.</li> </ul>
 <p>Metal products</p>	<ul style="list-style-type: none"> <li>● Tea kettles, pots, fry pans, utensils (spoons, forks, etc.), umbrellas, thumb tacks, metal lids, pliers, metal tools, spray cans.</li> <li>● To make sure that all contents of spray cans are empty, open a hole to release gas.</li> </ul>

※ **REQUEST! Please be sure to follow the proper rules and guidelines.**

- Please deposit your trash **by 8:30 AM** on collection day at the appropriate garbage station or collection site.
- Be sure to properly sort all trash. Garbage that does not follow the disposal rules **will not be collected**.
- Garbage stations are shared by local residents. Let's keep it clean!

## Recyclable Materials: Old Clothing and Textiles

The town of Shimizu actively promotes the recycling of used clothing and textiles. All clothing that has been gently used or that is no longer needed is welcome! By recycling all textile materials we can greatly reduce the amount of waste produced in our town.

Type	Textile Recycling (Limited to detergent washable materials and acrylic blankets.)	
Purpose	To recycle old clothing and blankets into industrial use fabrics such as cloths and gloves.	
Collection Location	① Shimizu Town Hall Department of Public Affairs ② Shimizu Cultural Center ③ Mikage Town Office ※ Each facility has designated orange collection bags for recycling textiles.	
Disposal	BE SURE to wash ALL items and place them in a plastic or paper bag before collection. ※ Please use a 45 Liter bag.	
Cost	FREE Please bring items to one of the above mentioned collection sites. Do not put "garbage" (such as nylon bags for cleaning) in the collection bags.	
Collectable Items	Knitted goods	Shirts, pants, workout clothes, baby clothes, polo shirts, blouses, pajamas, sweatpants, sweatshirts etc.
	Linens	Sheets, futon covers, pillow cases
	Towels	Hand towels, bath towels, towel blankets, baby towels, bathrobes, etc.
	Miscellaneous	Coats, jeans, suits, track suits, leather goods (belts, coats, etc.), scarfs, gloves, hats, etc.
	Blankets	ONLY acrylic blankets
Uncollectable Items	① Traditional Japanese clothing (kimono, yukata, etc.), ski/snowboard wear, pillows, seat cushions, toilet seat covers, stuffed animals, rags, curtains, doormats, carpet, unwashed items. ② Pet clothing, dirty items, cloth diapers, items that smell, etc.	

## Recyclable Materials: Small Electronic Appliances

In accordance with the "Small Home Appliance Recycling Law" of April 2013, all small home appliances (small used electronic devices) will be collected free of charge.

Collectable Items	Telephones	DVD players, recorders	Computer monitors	Hair dryers
	Cellphones	Audio equipment	E-books	Weed whackers
	Radios	Laptops / computers	Electric toothbrush, etc.	Digital clocks
	Film cameras	LED devices	Power tools	Gaming systems
	Digital cameras	Printers	Calculators	Electronic toys
	Electric scales	Electronic medical devices	Rice cooker	Electric razors / buzzers
	FAX machines	Electronic dictionaries	Microwave	CD players
Collection Location	Please bring directly to the Shimizu Town Hall (Department of Public Affairs) or Mikage Town Office.			

# Large/Oversized Garbage

Items that do not fit in the designated garbage bags should be taken out with the large garbage.

- For large scale garbage removal, an application is required. Please contact the Shimizu Town Hall Department of Public Affairs by the morning before collection day.
- Caution... For ease of retrieval, limit 5 items per person (Items must be able to be carried by two people).
- Be sure to purchase and attach the "large trash" label on all items. Items must be deposited at the collection site by 8:30 am on collection day. (We do not collect any garbage after the designated time.)
- Garbage left behind as a result of moving will not be accepted. Please bring it directly to the Kuririn Center or ask a collection and transportation company authorized by Shimizu Town. 

Large-scale garbage is collected on a door-by-door basis as a paid service. Prior application is required by telephone.

※ **PLEASE NOTE that collection is not possible in the following cases.** ↓

- |  |   |
|--|---|
| ● There is no "large trash" label attached.                                      |  |
| ● Not placed in designated collection site.                                      |   |
| ● To prevent future trouble, do not leave your garbage on your property.         |   |
| ● If you forget or set it out after collection time.                             |   |
| ● Garbage left behind as a result of moving.                                     |   |
| ● More than 5 items per person.  |   |
| ● Extra items other than the ones requested in the application form for removal. |   |

※ **REQUEST**

- |   |
|---|
| ● Please contact the Shimizu Town Hall Department of Public Affairs for any cancellations, additions, etc.  |
| ● If you forget to set out your garbage, set it out after collection time, or if your preparations are incomplete (such as stickers are not attached), your items cannot be collected. Please fill out the application again. |
| ● Please place all your items together at the collection site in clear view.  |

※ **Please see the "garbage calendar" for details such as designated collection date. If you have any questions or concerns please contact the Shimizu Town Hall Department of Public Affairs**

6. Glass, porcelain, concrete, ash
7. Large scale trash
  - Wooden furniture (with glass removed)
  - Large wooden items
  - Electric appliances (vacuum, etc.)
  - Large plastic items
  - Trees
8. Batteries \* rechargeable batteries (such as cellphone and digital camera batteries must be placed in the stores recycling box.
9. Fluorescent lights

**Disposal Fee**

**170¥ per 10 Kg**

- When entering the facility, please state the name of the city you live in and the garbage you are disposing of at the weighing station.
- Please pay the processing fee when you leave the weighing station.
- A processing fee will be charged for the weight of garbage. Please dispose of recyclable garbage for planned collection. In addition, a processing fee will be charged even if you use the prepaid designated trash bags.

### 【Caution when transporting items】

- ※ Since there is a separate entrance for each disposal site, please sort the garbage in advance for easy removal.
- ※ Please use transparent or semi-transparent trash bags so that the contents are visible.

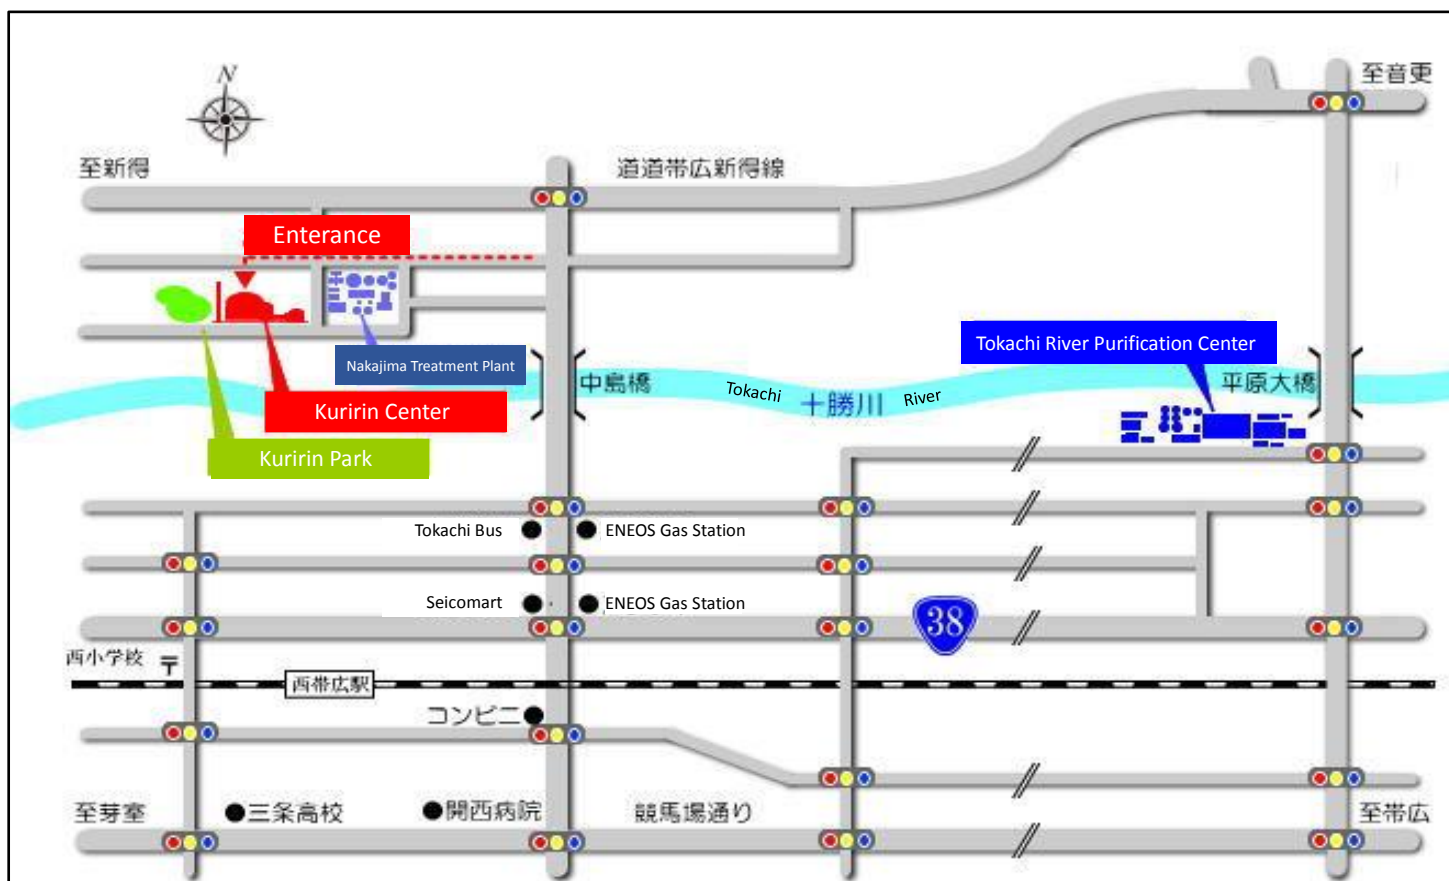

## Business Hours

- Monday – Saturday  
9:00 am – 5:00 pm

※ Please plan your arrival with ample time to spare.

## Holidays

- Sundays
- 3rd Monday of July
- 2nd Monday of October
- December 31st – January 2nd

If you are unable to come to the Kuririn center in person, you can request collection and transportation from a company authorized by Shimizu Town. Please inquire at the Shimizu Town Hall Department of Public Affairs or visit the Shimizu Town website.

Scan the QR code on the left to display a list of authorized collection and transportation companies.

## Healthcare Items (please follow the appropriate recycling guidelines.)

It is important to manage and dispose of needles and syringes safely to prevent injury and disease transmission. Follow all guidelines dictated by medical authorities for proper disposal.

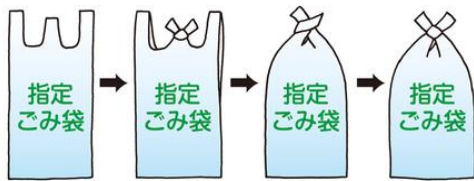

Home Healthcare Items		Disposal Method
(1)	<ul style="list-style-type: none"> <li>● Needles, syringes, lancets</li> <li>● Highly infectious items</li> <li>● Leftover pharmaceuticals (medicine, ointments, etc.)</li> </ul>	<p>To safely dispose of your needles, place them in a sealable container and return them to a certified medical institution or pharmacy.</p>
(2)	<p>Tubes or catheters without needles</p> <p>Peritoneum bag (CAPD), IV bag,</p> <p>Stoma / colostomy bag</p>	<p>1) Pour waste into the toilet to prevent liquid leakage. 2) Place item in a plastic or paper bag. 3) Put it in the city designated unburnable garbage bag. 4) Dispose of with <b>UNBURNABLE GARBAGE!</b></p>

# Let's Recycle Correctly!

While many people are properly disposing of garbage, there are some cases where people act in a careless manner, which hinders collection and causes trouble for others. Please note the following guidelines to ensure your garbage will be collected.

## ① DOUBLE TIE YOUR TRASH BAGS!

- Ensure all contents are concealed and that the trash bag is doubled tied. Bags with items sticking out or items that use two or more bags will not be collected.

## ② DO NOT put your recyclables in paper bags!

- Place all paper products with the  mark in a transparent or semi-transparent plastic trash bags so that contents are visible. Do not use a paper bags to dispose of paper items. Due to the weather and elements, items that have been set out in paper bags can become structurally weakened and dirty. Thus, unrecyclable.

## ③ Open a hole in all spray cans!

- Since a fire or explosion can cause serious accidents involving injury or loss of human life, be sure to open a hole in EVERY spray can and empty ALL lighters of lighter fluid before disposal. Let's avoid potential risks by following the correct recycling rules!

## ④ NO overweight bags!

- When taking out the garbage DO NOT overfill the bags. This can lead to the bags tearing and the trash being scattered around the garbage station, causing trouble upon collection.

# Life that is kind to the environment and on our wallets begins with valuing the 5Rs!

It's not about what we have in life,  
but how we live our lives that truly matters.

Aim to become a smart consumer!

With the 5Rs we can reduce waste and our household budget!

Look around you. Are you aware of how much waste you produce on a day to day basis? Are you conscious of ways to reduce waste in your daily life? For example, let's say you go out shopping and see you a cheap appliance that you don't really need and it will probably break within a week... but you buy it. Or how about that piece of furniture that you're not exactly in love with but it's so cheap you just have to buy it right? And how about those shoes you'll wear once then throw out? That handbag you decided was too small and threw in the back of your closet? In these instances, isn't it better to by a product that you will love and it will last many years even if it's a little more expensive? Of course, that doesn't mean you shouldn't buy inexpensive things. But by having quality products around you, you can enrich your life and reduce garbage at the same time.

## What are the 5Rs? (Do you know?)

① Refuse	Say no to unnecessary items! ● Say no to single use plastics (straws, bags, etc.) and items that will end up in a landfill!
② Reduce	Reduce the amount of general waste you create! ● Plan ahead and only buy the necessities.
③ Reuse	Ditch disposable, use reusable! ● Treat your items with care to keep them lasting a long time.
④ Repair	Fix it! Don't ditch it! ● Repair and mend items that can be reused.
⑤ Recycle	After everything else, don't forget to recycle! ● Before throwing items away, take them to the nearest recycle shop or give them to a person in need.

By carefully utilizing goods at all stages of production, distribution, consumption and disposal, while refusing single use plastics, reducing general waste, and actively reusing, repairing, and recycling all materials, we the citizens of Shimizu strive to create an environmentally friendly society for all. In order to protect and pass on the peaceful natural environment of Shimizu to the next generation, we all must do our part to implement the 5Rs in our everyday life.

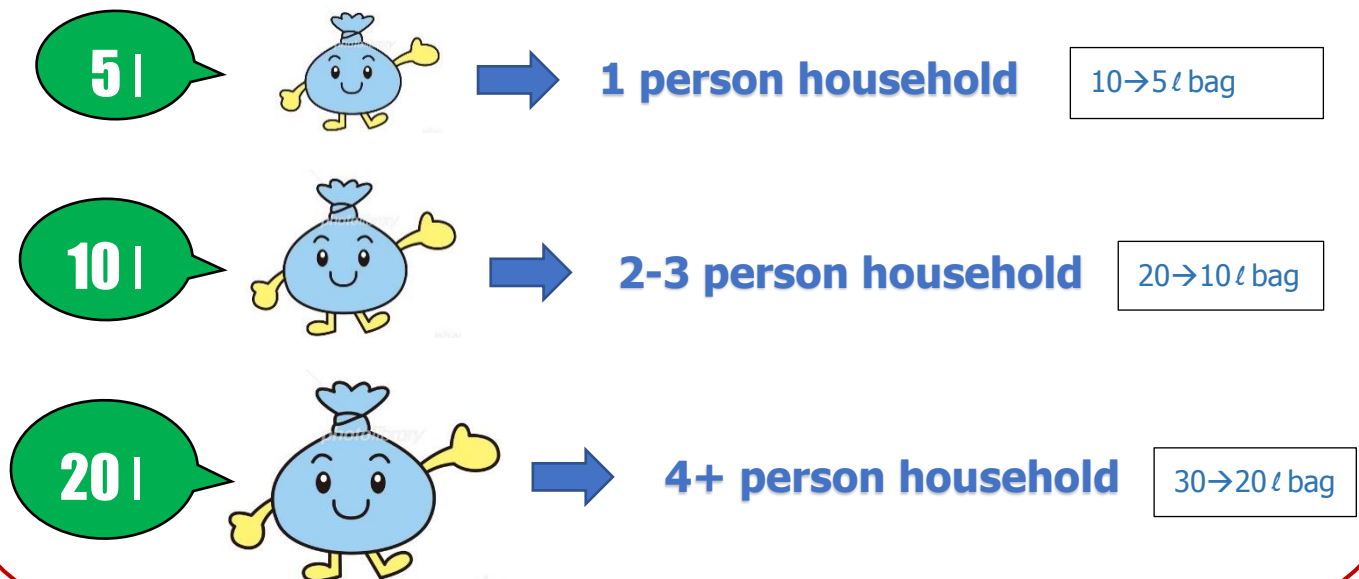

# 4 Practices for Waste Reduction

In accordance with Shimizu's 2017 Basic Waste Management Plan, our town's aim is to reduce the amount of daily waste created to 599 grams per day for each citizen by 2032. This is an 18% reduction from the 732 grams (per person per day) recorded in 2018. Let's work on reducing our daily waste!

Below are the 4 proposed practices for reducing garbage. One family, one bag! If you sort and recycle properly you can surely achieve this goal! Don't wait on tomorrow, RECYLCE TODAY!

## Daily Household Garbage Goals!

(The secret to waste reduction... starts with proper separation!)

## Practice ① Separating Papers

The "paper" items that are nonchalantly thrown into the burning garbage can become valuable resources when correctly separated. Please insert the following paper items such as documents and envelopes between magazines, and tie them together with a string.

- **Recyclable papers** (to be set out with magazines) ... pamphlets, catalogs, paper towel / toilet paper tubes, post cards, envelopes, calligraphy paper, documents
- **Burnable papers** ... photographs, carbon paper, gold leaf paper, silver leaf paper, oil blotting paper, wax paper, receipts, items without the 紙 mark

# Practice ② Composting!

Have you ever found yourself saying ... “I don’t have a garden or a field so I can’t compost.” or “I don’t want it to stink up my house!” Well there is no need for you to say that anymore. The town of Shimizu has proposed a variety of methods to accommodate your living situation and home environment. So let’s do our best to reduce raw garbage and food waste!

## ① If you have a garden or field

If you live in a rural area and have an accessible garden or field at your home, an open compost heap is a great option. Just fully cover your food scraps with dirt to create nutrient rich soil. During winter opt for a closed compost bin.

## ② Other Methods

If you live in the suburbs, opt for an outdoor closed compost bin, an electric indoor compost bin, a Bokashi bucket, or a cardboard compost box.

**Electric Compost Bin / Bokashi Bucket / Cardboard Compost Box**

## Practice ③ Recycling Used Garments!

The Town of Shimizu promotes the recycling of textiles (used clothes and fabrics). If you have clothes that you no longer wear or clothes that are no longer your style, be sure to recycle them. By recycling fibers, we can greatly reduce the amount of daily waste we produce.

## Practice ④ Recycling Cooking Oil!

In town, we recycle leftover cooking oil that cannot be reused, such as tempura oil and bacon grease. To dispose of used cooking oil, place it in a plastic container or PET bottle, write "廃油" or "はいゆ" (meaning oil), and set it out at the trash station on the appropriate recycling day. The collected oil can then be filtered and used to run cars and trucks that have been converted to run on vegetable oil, such as city busses!

## Re-evaluating Lifestyle Choices!

Strive to live a life that generates zero daily waste!

- |   |
|---|
| ● Choose simple eco packaging or reusable containers, and decline items with excessive wrapping.  |
| ● Bring reusable shopping bags while grocery shopping! Be a part of the "MY BAG" movement.  |
| ● Avoid the purchase of one use disposable products as much as possible and endeavor to make green purchases by selecting eco-friendly items with the ECO certified mark.<br>※ For example, instead of buying a new bottle of laundry detergent, prepare your own bottle such a PET bottle or water bottle and choose a detergent refill. |
| ● Plan ahead when cooking and properly measure ingredients to avoid leftovers and excess food waste.  |
| ● Compost as much as possible!  |
| ● Cherish and take care of your belongings. When you are no longer in need of them, donate them to others or bring to a recycle shop.   |
| ● Don't just carelessly throw something away when it's broken, damaged, or stained. First try to fix it!  |
| ● Buy high quality durable goods that will last more than 10 years vs. cheaper products that will breakdown quickly. By choosing the more expensive items, you will save money in the long run!   |

# Garbage Separation Encyclopedia (Alphabetical)

● Burnable garbage: City Designated trash bag (yellow)

● Unburnable garbage: City Designated trash bag (green)

● Recyclables: Transparent plastic bag

● Large Garbage: Contact Shimizu town hall in advance!

<b><u>Memo</u></b>						

- Burnable garbage: City Designated trash bag (yellow)
- Recyclables: Transparent plastic bag

- Unburnable garbage: City Designated trash bag (green)
- Large Garbage: Contact Shimizu town hall in advance!

## ● Illegal dumping is severely punishable by law!

Due to the growing social concern regarding environment protection, strict laws and regulations have been instituted to cease the illegal disposal of waste. Although the processing fee and separation system may seem tedious, please do not carelessly engage in illegal dumping!

**No Dumping!**

- In accordance with the "Waste Disposal and Cleaning Law" it is prohibited to dump waste any roadside or public / private property that is not licensed or permitted to receive waste.
- Those convicted of illegal dumping can be subjected to any or all of the following penalties: **incarceration of up to 5 years or a fine of up to 10 million yen.**
- The town of Shimizu will report any malicious acts of illegal dumping to the **police** and apprehended culprits will have their **workplaces notified.**
- If you see illegal dumping report it by calling
  - ◇ Toll free: 0120-538124
  - ◇ Shimizu Town Hall Department of Public Affairs: 0156-62-1151

## ● Illegal burning is strictly prohibited!

With the exception of municipal incineration facilities that can legally meet the installation and safety standards, it is **ILLEGAL** to burn waste on any private or public properties.

**No Burning!**

- Backyard burning (the act of burning household garbage on one's own private property) releases harmful contaminants such as dioxin into the air. **STOP** backyard burning!
  - Those convicted of illegal burning can be subjected to any or all of the following penalties: **incarceration of up to 5 years or a fine of up to 10 million yen.**
  - Backyard burning is acceptable in the following cases:
    1. To prevent frost damage to crops.
    2. For religious events and ceremonies such as Dondo-yaki and Kadomatsu (usually performed during New Year at a shrine or temple).
    3. For farmers to dispose of large scale crop residue.(Crop residue can contain harmful insects, weeds and disease that could have adverse effects on crops the following year.
    4. Wood burning camp fires (in an enclosed campfire pit or BBQ stand)
- ※ Please be aware that in certain cases the exceptions listed above can be subject to police investigation if found to be causing problems for others.
